

**CFMDU-SAM-HD1-2X104****CFMDU-SAM-HD1-12H-PLC**

Product Overview

The CFMDU-SAM-HD1-2X104 and CFMDU-SAM-HD1-12H-PLC are designed to work within the NGB2 MDU enclosure basement box and in the UGPN's CFNB-PRI-104-10SN, CFNB-PRI-104-11SN, CFNB-PRI-104-13SN. This splice tray has 2 x 1:4 splitters installed on them. The tray is designed for quick installation into the raceway for speed and ease of construction of the closure or expansion of the network footprint. The tray can be labelled using a blue sticker to highlight the type of network that is installed within the splice tray. *Note Blue stick will need adding in the field.

Features

- 2 x 1:4 optical splitters or empty
- Fibre type is G657.A1
- Can be installed into either the NGB2 box or the UGPN closures.
